*Text*

time doesn't follow a line  
it just flows within a spiral  
history repeats decline  
its effect on us is viral

we're the new generation  
we've learned our lessons from the past  
if we all stand together  
we'll be immune to a recast

getting together, we'll get it together  
when we are united, we're stronger than ever  
getting together, we'll get it together  
let's get ignited, 'cause it's now or never

so now,  
let's reverse the order  
and turn the system back around  
nowhere to hide - tear down the wall  
let's go break through the border  
gotta subside, gotta subside  
and bring the missing to the found

we're the new generation  
we've learned our lessons from the past  
if we all stand together  
we'll be immune to a recast

getting together, we'll get it together, uuuuuh  
when we are united, we're stronger than ever  
getting together, we'll get it together  
let's get ignited, 'cause it's now or never

weit, weit weg, denn der Kosovo glüht, wie 'ne Zigarett(e)  
wie Jesus Christus fliegt mein Reim über'n See Genezareth  
der Weg ist fett, es ist Platz für alle da, für jung und alt  
und alle ethnischen Gruppen in Prisztina

and yes I'm tired of the bloodshed  
all this warfare, time to let the love spread  
and let the poor be fed  
I'm lookin' for more than care  
power's in numbers  
instead, we devour the younger

getting together, we'll get it together  
we'll get it together  
when we are united, we're stronger than ever  
we're stronger, strong enough  
getting together, we'll get it together  
we'll get it together  
let's get ignited, get it together  
'cause it's now or never

stone cold have you ever heard of a murderer?  
this bloody mess comin' straight to your chest  
rippin' flesh straight up hurtin' ya  
curvin' the block 'cause it's hot and it's time for sun and weather  
so use your brains and not your guns  
and let's get it together

Music Instructor

sometimes when I'm sitting at home and ask myself the question  
why so many innocent people in the world gotta die

Music Instructor

why must everything we create be used to devastate?  
we talk about love but only seem to love to hate
